THE STRENGTH AND SHEEN OF MELAMINE

Wood is expensive, with rising prices and scarcity that slows down your home renovation project. It's time for a smarter millwork alternative that embraces your expanding storage options: melamine!

MUDROOM CUBBIES AND BUILT-IN GARAGE ENTRANCES

Imagine how much more storage your home could hold with an upgraded mudroom or garage. Mudroom cubbies are open-front shelves that add instant organization for your shoes, boots, hats, gloves, and everything else in the mudroom. A built-in garage entrance is another smart way to amp up your storage options. We'll install large, strong shelves that are nestled around your garage entrance and can handle even your biggest, bulkiest storage items.

LIVING ROOM ENTERTAINMENT CENTERS

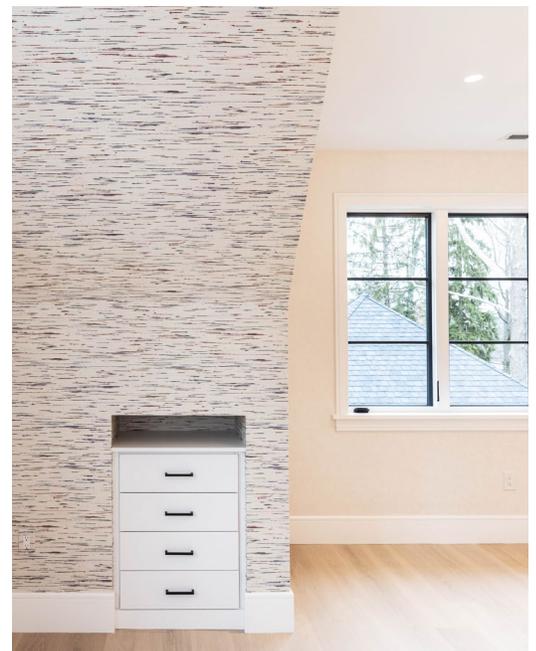

The days of freestanding entertainment centers are long gone! Today's beautiful built-in entertainment centers look just like part of the wall and upgrade the design style of your living room, den, or basement. Plus, they hold and hide an enormous amount of storage for your TV, internet, game systems, cords, devices, and everything else. We can even create a secret device charging station for your phones and laptops!

BEDROOM BOOKCASES, DESKS, AND WINDOW BENCHES

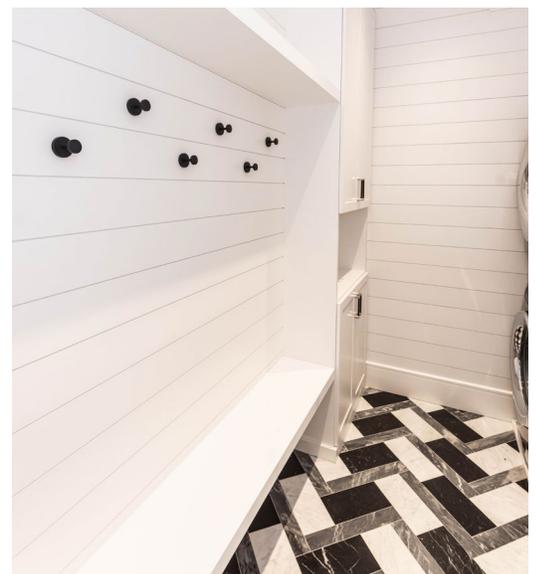

Look around your bedroom. Do you have storage space waiting to be discovered? We can build in a bookcase, desk, or window bench that adds tons of extra storage while maintaining the restful look and feel of your bedroom. Picture a bedroom window surrounded by shelves, anchored with a comfy window seat that holds hidden storage underneath. It's beautiful and functional!
